

# 12v inverter for power outage

## Overview

---

Which inverter is best for a power outage?

The most common inverter sold for emergency home backup power during a power outage is a 1750 watt. This inverter is perfect for most vehicles and will run most appliances. Ok, now that we got that out of the way we can start sizing an inverter that is going to work well during a power outage.

How do I use an inverter for emergency power?

A very simple way to use an inverter for emergency power (such as during a power outage), is to use a car battery (with the vehicle running), and an extension cord running into the house, where you can then plug in electrical appliances. [More Questions?](#)
