

300wh power station in China in Uganda

Overview

Will China build a hydroelectric power plant in Uganda?

Karuma hydroelectric dam, due to be completed early this year by China's Synohydro Corporation, is currently Uganda's largest power project [James Akena/Reuters] Uganda has received an application for a licence to build a hydroelectric power plant on the Nile River from a Chinese firm, documents seen by Reuters News Agency show.

Is Uganda synchronizing its power grid with China's Karuma hydropower plant?

Uganda on Tuesday successfully launched the last unit of six turbines at the Chinese-built Karuma Hydropower Plant and synchronized it on the national grid, the country's electricity generation agency said. (Photo by Wang Jian/Xinhua).

Where is Uganda's largest hydropower plant located?

The Karuma Hydropower Plant, with a total designed installed capacity of 600 MW, is located in mid-northern Uganda in East Africa. In early 2024, Uganda launched the last unit of six turbines at the plant and synchronized it on the national grid, marking its full operation as Uganda's largest hydropower plant. Power generation boosted.

Where is the Karuma hydropower plant in Uganda?

This photo taken on Feb. 6, 2024 shows the facilities of the Chinese-built Karuma Hydropower Plant in Kiryandongo, Uganda. Uganda on Tuesday successfully launched the last unit of six turbines at the Chinese-built Karuma Hydropower Plant and synchronized it on the national grid, the country's electricity generation agency said.
