

350kW Photovoltaic Container Used in Resorts

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is HJ mobile solar container?

The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium battery storage, and smart energy management.

Are hotels investing in solar power plants?

More and more modern hotels are investing in the construction of their own solar power plants. Avenston designs and builds solar energy solutions for hospitality companies. Our solar power plants are installed on the roofs and facades of hotels and provide clean and cheap electricity.

What are the perks of installing solar panels in hotels?

Below mentioned are some of the perks of installing PV in the hotels. Installing solar panels in the hotels will help in controlling the global warming and other environmental problems related to it. Installment of the solar panels in the hotels will help you save a huge amount of money.
