

350kW Zimbabwean folding container for chemical plant

Overview

What is a goodpack intermediate bulk container (IBC)?

Managing the safe transport and storage of chemicals is a major challenge for businesses. It requires solutions that not only ensure safety and compliance with regulations but also align with sustainability and cost-efficiency goals. Goodpack's Intermediate Bulk Containers (IBCs) provide an innovative, sustainable approach to meet these demands.

What is a goodpack MB5 container?

All Goodpack containers have a patented designs and are equipped with bar codes as well as RFID tags. Specialized liquid liners fitted with the MB5 container will preserve the product's integrity and ensure its long-term stability. A major client, a global leader in petrochemicals, adopted Goodpack's MB5 IBCs for transporting their products.

What is a MB5 reusable container?

The MB5 is engineered for the chemical industry, providing durable, reusable storage that meets the stringent safety standards required for transporting non-hazardous materials. Goodpack's reusable bulk containers are designed for seamless integration into the supply chain, offering enhanced safety and efficiency in liquid transport.

What types of chemicals can a goodpack IBC transport?

Goodpack's IBCs are versatile and can transport a wide range of chemicals, including liquids, powders, and granules. They are suitable for various industries, such as pharmaceuticals, agriculture, and manufacturing, ensuring that different types of chemicals are safely and efficiently transported.
