

# 40kWh Pakistani photovoltaic container power station

## Overview

---

When will 900 MW photovoltaic power stations be completed in Pakistan?

Affected by the change in purchase price policy, the 900 MW photovoltaic power stations in Punjab province, Pakistan, which received an investment of USD 1.5 billion from Zonergy Solar Technology Co., Ltd., was scheduled to be completed in June 2016. However, the 600 MW of solar energy generation is still in the construction stage.

Are photovoltaic power stations a viable development model in Pakistan?

To date, the development model of photovoltaic power stations has been gradually enabled in other areas of Pakistan. Baluchistan, FATA, NESCOM, and other institutions have successively sought relevant guidance to construct solar parks.

How much does a solar power station cost in Pakistan?

Afterward, the National Electric Power Regulatory Authority (NEPRA) of Pakistan approved the transmission electricity price of solar power stations of 17.85 Rupees per kWh in the northern regions and 17.12 Rupees per kWh in the southern regions.

What is photovoltaic power station in Quaid-e-Azam Solar Park?

Photovoltaic power station in Quaid-e-Azam Solar Park, Pakistan. Source: photographed by the author. The photovoltaic power stations in Quaid-e-Azam Solar Park were typical renewable energy projects which served as a demonstration for the construction of CPEC based on the Belt and Road Initiative.
