5g base stations and communications in Qatar

Overview

Is there 5G network in Qatar?

Mobile phones in Qatar generally use 3G or 4G networks, but the 5G network is also available. Ooredoo was the first company to launch a commercial 5G network in Qatar. Currently, the network is mostly limited to parts of Doha, and both mobile phone providers in Qatar offer 5G plans.

When will 3G mobile telecommunications services be terminated in Qatar?

The Communications Regulatory Authority (CRA) has officially mandated the termination of 3G mobile telecommunications services (IMT-2000) in Qatar by December 31, 2025, following consultation from stakeholders.

How many 5G base stations are there in the world?

In addition, a total of 819,000 5G base stations have been built by these three telecom giants, accounting for 70% of the world's total. As China has played a leading role in 5G technology, its 5G development has extraordinary significance for other countries.
