

# 5kwh battery storage for sale in Sydney

## Overview

---

What is the IQ 5p battery?

Designed to integrate seamlessly with the Enphase Energy System, the IQ 5P Battery enhances your energy independence by storing surplus solar energy for use during peak times or power outages. Its modular design allows for easy expansion as your energy needs grow, making it a flexible option for households of all sizes.

How many kWh can a Sigenstor store?

Flexible configurations permit simple expansions whenever you need it. Store from 5kWh up to 48kWh of energy per stack. Connect multiple SigenStor's in parallel to meet larger capacity needs. With a 5-layer comprehensive battery safety protection system featuring Sign Shield 3D, SigenStor is proven to be safe for Australian homes.

How much does a kWh battery rebate cost?

Our price is currently \$2488. It's important to know, at this early stage this is still unconfirmed as to exactly how the rebate will work, and it may change to be 30%, however we have reports that the rebate will be paid at between \$300-372 per kWh to the CEC accredited battery installer who submits the installed battery job into the STC system.
