

# 5kwh battery storage in China in Cambodia

## Overview

---

[Phnom Penh, Cambodia, June 11, 2025] Huawei Digital Power, in collaboration with SchneiTec, has successfully commissioned Cambodia's first-ever TÜV SÜD-certified grid-forming energy storage project, marking a key milestone in the country's transition toward a sustainable energy future. Can battery energy storage be used to power Cambodia's grid?

Large scale battery storage systems Cambodia Can battery energy storage be used to power Cambodia's grid?

"The battery energy storage system will showcase how large-scale deployment of innovative technology applications can be used to operate Cambodia's grid in the future and generate more renewable power." Why should Viet.

Will Cambodia achieve 70% renewables by 2030?

Cambodia is targeting 70% renewables by 2030. Image: Huawei Digital Power. Huawei Digital Power has successfully commissioned what it claims is Cambodia's first grid-forming battery energy storage system (BESS) certified by TÜV SÜD.

Can lithium-ion batteries be used for solar power in Cambodia?

t of 2 gigawatts of solar power in Cambodia. The low cost and high efficiency of lithium-ion batteries has been instrumental in a wave of BESS deployments in recent years for both small-scale, behind-the-meter installations and large-scale, grid-level deployments. Battery systems can be used to overcome several challenges related to.

Does Cambodia have a power supply?

None currently available. Cambodia has substantially increased power generation capacity while reducing imports from neighboring countries. Domestic power generation has rapidly increased from 8.68 TWh in 2020 to 17.85 TWh in 2024, while imports decreased from 3.06 TWh in 2020 to 1.57

TWh in 2024.
