

A batch of grid-side energy storage projects in Albania

Overview

How can Albania solve the energy crisis?

In addition to eliminating the electricity deficit and taking electrification to new sectors, Albania can increase its potential to unlock new industries and investment using clean energy. The country can explore opportunities to produce green hydrogen through solar and wind power.

Will Masdar build a 'gigawatt-scale' renewable power portfolio in Albania?

Masdar and the Albania Power Corporation (KESH) have announced plans to build a “gigawatt-scale” renewable power portfolio in Albania.

Is Albania a good place to invest in renewables?

Opportunities for renewables, and especially for solar and wind energy, are extensive in Albania. According to IRENA’s Renewables Readiness Assessment report (2021), the solar radiation is very high throughout most of its territory, with the country enjoying some of Europe’s highest number of sunshine hours per year.

Will Albania expand its solar sector?

Albania, meanwhile, has sought to expand its solar sector in recent years, launching its fifth round of auctions for new PV capacity in January of this year. Bids were placed for 355.9MW of capacity, and the ministry of infrastructure and energy awarded contracts to eight consortia for 300MW of capacity.
