

A factory in East Asia that makes battery cabinets

Overview

Why is China a leader in battery liquid cooling products & services?

If you're curious about battery liquid cooling products or services, feel free to ask me any questions! China excels in battery pack enclosure tech due to strong government support, a vast market, and major investments in innovation and sustainability.

Where are battery thermal management components made?

Located in Suzhou, China, they're masters in developing battery thermal management components, like battery pack enclosure, liquid cooling plates, with a variety of proprietary product lines. Their edge?

A one-stop solution from R&D to production, all meeting automotive-grade standards (IATF 16949). They have cooperation with Vinfast, LG, etc.

Who makes aluminum battery casings?

They have honed their focus on the automotive industry, particularly on its electrification, ascending to become the supplier of aluminum battery casings and exterior parts. Their global footprint is underscored by strategic partnerships and joint ventures, notably with the Renault Group for manufacturing battery casings in France.

What is a battery housing?

These battery housings are designed to provide secure containment and structural support for the battery packs in new energy vehicles. They are the leader in lithium battery connection systems. Their main business is the research and development, design, production and sales of electrical connection products.
