

Aarhus Denmark battery storage box direct sales company

Overview

Are VisBlue batteries reusable?

99% to be exact. The core of a VisBlue Battery Solution consists of the following major components: an electrolyte stack and two tanks, which are made of conventional plastic, and these are either recyclable or reusable. Furthermore, two metal plates hold the stack together, and these are also recyclable.

Who sells Fiamm batteries in Scandinavia?

We are the official Scandinavian distributor for the world's leading manufacturer of batteries, Panasonic, which focuses on operating time, service life and reliability. We are also the distributor in Denmark for YUASA, and we distribute Italian-made FIAMM batteries in both Denmark and Norway.

What is a battery storage project?

Our goal is to build an integrated business where technology, power trading, and development work together to create long-term value. Initiating a battery storage project involves ensuring proximity to the grid's transmission level, with a screening process initiated with grid operators to assess available capacity.
