

Address of the new power signal base station in Honduras

Overview

How will Honduras' new substation projects be funded?

The projects will be funded by a 40-year loan to the Government of Honduras by the IDB. The first contract is for building a substation in the capital of Honduras and enlarging three substations in the north, where most of the country's industry is located.

Does Honduras have a power plant?

In March 2018 Honduras's Comisión Regional de Interconexión Eléctrica (CRIE) approved expansion of the plant's output to the national grid from 60 MW to 90 MW in conjunction with the commissioning of a third 35 MW unit. The Bijao power station was originally designed to operate on coal or petroleum coke (petcoke).

What does the Secretariat of energy do in Honduras?

The Secretariat of Energy (SEN) is the primary government body responsible for overseeing the energy sector in Honduras, including mini-grid development. It sets national energy policies, plans rural electrification strategies, and coordinates with stakeholders to implement mini-grid projects.

Does Honduras have a power grid?

Honduras's power grid is extensively developed in all departments except the easternmost department, Gracias a Dios. Honduras has granted distribution concessions to 7 utilities nationwide, with the state-owned Empresa Nacional de Energía Eléctrica (ENEE) managing nearly 99% of the electricity grid. lowest electricity access rates.
