

# **Africa backup UPS uninterruptible power supply equipment**

## Overview

---

What is a transformer based UPS?

Provides robust, high-density power and protection commonly required in data centers. Transformer-based UPS systems use a transformer to provide voltage regulation. An Uninterruptible Power System (UPS) is a backup power solution that acts as a secondary power source in the event of a power failure.

What is an uninterruptible power system (UPS)?

An Uninterruptible Power System (UPS) is a backup power solution that acts as a secondary power source in the event of a power failure. It can also protect valuable hardware such as computers, hospital equipment, data centers, telecommunications equipment or other sensitive electrical devices in the event of a power surge or dip.

What are the different types of uninterruptible power supply (UPS) products?

LEGRAND offers a range of Uninterruptible Power Supply (UPS) products that are divided into 2 different types of products: single-phase and three-phase. The range is wide and complete, with solutions that guarantee maximum performance in terms of power and backup time.

Who is UPTECH?

Uptech stands out as a leading provider of power backup solutions in South Africa, offering exceptional value through its range of Uninterruptible Power Supplies (UPS) and related services. We import, supply, install and service Uninterruptible Power Supplies (UPS's) from 1kVA to 650kVA, including 3 phase UPS products.
