

African Communications Engineering Company 5g base station

Overview

Who is involved in 5G in Africa?

There are a number of multilateral stakeholders and organisations that engage with and represent various parts of the 5G ecosystem. In Africa, these include the African Telecommunications Union (ATU), the ITU, the GSMA, Smart Africa and sub-regional digital and communications authorities.

Will arm launch 5G solutions Labs in Africa?

Arm has ambitions to launch 5G solutions labs across Africa, starting with South Africa. Realising the potential of 5G in Africa depends on customer adoption and usage, which in turn strengthens the business case for network rollout. As with previous mobile generations, the consumer market will be an important growth driver for 5G.

When did 5G start in South Africa?

In 2020, Vodacom and MTN launched the first major 5G networks in the region, offering 5G mobile and fixed wireless access (FWA) services in South Africa and formally kicking off the 5G era in Africa.

Which eMBB & FWA will be the dominant 5G use cases in Africa?

The consensus of stakeholders in the 5G Africa Survey was that eMBB and FWA will initially be the dominant 5G use cases in Africa. There is growing demand for enhanced connectivity among consumers in the wake of the pandemic, which has brought about changes in many social and work-related activities.
