

Albania crystalline silicon solar module prices

Overview

How much does non Xinjiang polysilicon cost?

Currently, non-Xinjiang polysilicon with traceability data generally carries a quoted premium of RMB 3-5/kg. Polysilicon prices in dollar terms are prices for polysilicon with non-China origins in dollar terms, not translated from RMB prices.

Is polysilicon pricing a stalemate?

At present, the relative firmness of polysilicon pricing is providing a critical bottom support for the entire supply chain. Short term, the market is likely to remain in a stalemate of weak supply and weak demand, with prices expected to stay at a weak and steady level. Wafers Supply & Inventory:.

What's going on with polysilicon prices?

Price Outlook: Polysilicon prices remained weak but steady this week. The main support lies on the cost floor of the supply chain. Specifically, wafer prices have already fallen to cash-cost levels, meaning current pricing is largely held up by higher polysilicon costs.
