

Albania requires solar container outdoor power

Overview

Will Albania have a solar power project?

The Ministry of Infrastructure and Energy of Albania received four applications for solar power projects with a combined capacity of 235 MW. A proposed unit in Fier, the country's photovoltaics hub, would be the second-biggest in the country. Solar power accounts for 6% of electricity production in Albania.

Could solar power reduce Albania's reliance on energy imports?

Albanian researchers say that solar could be key to reducing Albania's reliance on energy imports, but the nation will need to invest in grid infrastructure, streamline laws, and enhance access to funding to support deployment.

Are energy imports a problem in Albania?

Energy imports do not only have an adverse impact on the country's trade deficit, but they also pose significant risks to the country's energy security. Today, Albania remains a net energy importer as domestic energy production is not able to meet demand.

Is Albania a net energy importer?

Today, Albania remains a net energy importer as domestic energy production is not able to meet demand. When it comes to renewable energy imports, Eurostat data shows that the country ranks 8 th in Europe.
