

Albanian families install solar panels

Overview

Recent Census data from late June shows that 11.4% of Albanian families now use solar panels, up from 2.7% in 2011. How much do solar panels cost in Albania?

Solar panels are sold for around 140,000 Albanian lek in the market, but citizens have paid 42,000 Albanian lek, with the remaining amount covered by the Government through one of the seven licensed service companies. For the year 2024, there is no set date yet for the opening and closing of applications.

Do new buildings in Albania need to be energy efficient?

Starting in 2026, all new and renovated buildings in Albania will need to comply with minimum energy performance requirements and use renewable energy to reduce greenhouse gas emissions.

Should new buildings use solar energy in 2026?

Starting in 2026, all new buildings would need to use solar energy. The draft law stipulates that investors must consider the use of renewable energy overall, cogeneration systems and heat pumps and the introduction of district heating and cooling.
