

American power frequency inverter custom manufacturer

Overview

Who makes power inverters?

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating Current) and DC (Direct Current). AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries.

Who makes EPC power?

EPC Power is proudly powered by American ingenuity. Our power conversion systems are designed, engineered, and manufactured in the USA using high-quality components. Since our founding in 2010, we have quickly become the premier manufacturer of utility-scale power inverters in North America.
