

Are there subsidies for energy storage equipment in Cebu Philippines

Overview

Does Aboitiz Power have a hybrid energy storage system in Cebu?

Aboitiz Power Corporation, one of the Philippines' major utilities, has launched a project that reflects this shift toward hybrid infrastructure. The company is constructing a 30-megawatt hybrid Battery Energy Storage System (BESS) in Cebu, in collaboration with East Asia Utilities Corporation.

What are the benefits of energy storage systems in the Philippines?

Configuring an energy storage system can alleviate grid congestion and improve grid stability. Smoother Energy Output: As of now, the Philippine power grid coverage rate is about 91%, and some areas still have problems with no power coverage, insufficient power supply, and unstable power.

Why should we invest in energy storage in the Philippines?

"This energy storage project is not just another venture—it is a testament to our shared commitment to advancing clean energy in the Philippines. By integrating advanced storage technology, we are not only enhancing grid stability but also ensuring that renewable energy can be supplied reliably, day and night.

Will Aboitiz Power build a hybrid battery energy storage system in Mactan?

Aboitiz Power Corporation (AboitizPower), through its subsidiary East Asia Utilities Corporation (EAUC), is set to construct a 30-megawatt (MW) hybrid Battery Energy Storage System (BESS) within the Mactan Economic Zone, reinforcing efforts to improve grid reliability in the Visayas region.
