

# Australia s new industrial and commercial energy storage cabinet

## Overview

---

Are 300kW energy storage systems a trend in Australia?

“Back in 2014, we started with small 30kW commercial systems, but today, 300kW systems are becoming a common sight on rooftops across the country,” said Dan Su, Head of Jinko ESS ANZ. “As we step into a new era of energy storage, Jinko continues to lead the Australian market, providing our clients with the highest quality products and services.

What is energy storage system?

All-in-one, high-performance energy storage system for various industrial and commercial applications. Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, commercial areas, housing communities, micro-grids, solar farms, and more.

What are the applications of energy storage system?

All-in-one, high-performance energy storage system for various industrial and commercial applications. Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, commercial areas, housing communities, micro-grids, solar farms, peak shaving, demand charge management, grid expansion and more.

What is LiHub all-in-one energy storage system?

LiHub All-in-One Industrial and Commercial Energy Storage System is a beautifully designed, turn-key solution energy storage system. Within the IP54 protected cabinet consists of built-in energy storage batteries, PCS inverter, BMS, air-conditioning units, and double layer fire protection system.
