

Austria base station explosion-proof UPS power supply price

Overview

What is the iups101 uninterruptible power supply system?

The iUPS101 Uninterruptible Power Supply system is certified for use in ATEX and IECEx Zone 1 and 2 hazardous areas. It provides back up power to protect critical equipment, such as instrumentation and control systems, navigation and landing lighting, or blow out prevention systems, in the event of a blackout or brownout. Want to find out more?

.

What is a modular UPS system?

Where maximum system availability is required in hazardous areas, R. STAHL's modular UPS system allows bespoke solutions to be devised in order to guarantee the uninterrupted supply of power to the system.

Why should you use Stahl's uninterrupted power supplies?

R. STAHL's uninterrupted power supplies (UPS) prevent your company from incurring the high financial losses that can result from voltage drops and power failures. They balance out brief fluctuations and, in the event of extended power outages, ensure that your systems are shut down in a safe, controlled manner.

What is a sitop 24 V power supply & add-on module?

In these environments, electronic devices must help ensure occupational health and safety by means of a special design and certificates. SITOP 24 V power supplies and add-on modules are therefore also available as Ex versions for zone 2, in which an explosive atmosphere can occur due to gases, vapors, or mist.
