

# **BESS prices for solar panels in Manila**

## Overview

---

How much do solar panels cost in the Philippines?

The cost of solar panels in the Philippines varies based on property type and other factors. For commercial properties, prices typically range from ₱20,000 to ₱30,000 per kilowatt, while residential installations usually cost between ₱30,000 and ₱50,000 per kilowatt.

Are solar panels a viable choice in the Philippines?

The Philippines is a country that receives plenty of sunshine all year round. This makes using solar panels a viable and popular choice here in this nation. If you're looking to buy solar panels, this guide provides insights into solar panel prices in the Philippines & Manila.

How much does a photovoltaic panel cost in the Philippines?

The Philippines photovoltaic market is dominated by Asian producers of PV panels, whose panels are usually cheaper than their European counterparts. The most popular brands include Longi, Jinko, Trina Solar and Risen. Their 300-watt panels usually cost Php 7,068 to Php 11,308.

Where to buy cheap solar panels in the Philippines?

The cheapest offers of solar panels in the Philippines can usually be found in online stores or solar equipment distributors. There we can find opportunities for panels from lesser-known brands at promotional prices. However, when buying a very cheap panel, you should be careful about unfair offers and contraband.
