

Backup solar container battery in Gothenburg Sweden

Overview

How important is the battery storage industry in Sweden?

The Battery Storage industry in Sweden presents several key considerations for those researching companies in this field. First, regulatory frameworks are crucial, as Sweden's commitment to sustainability and renewable energy mandates compliance with strict environmental standards.

Where are capture energy batteries made?

Our batteries are produced in China, and then shipped, finalised and tested at Capture Energy's site in Gothenburg, Sweden. At the same time, the site where the battery will be installed is prepared for the installation according to manuals provided by Capture Energy.

Why should you invest in batteries in Sweden?

Batteries enable the phasing out of fossil fuels and increase flexibility in the electricity system through energy storage. The Swedish battery industry is at the forefront. Sweden also has related strengths and opportunities in areas such as vehicles and electrical systems, as well as a strong mining cluster.

Are batteries the key to achieving Sweden's climate goals?

Batteries are a crucial piece of the puzzle if we are to achieve Sweden's climate goals with net-zero emissions by 2045. Batteries enable the phasing out of fossil fuels and increase flexibility in the electricity system through energy storage. The Swedish battery industry is at the forefront.
