

Benin 20W solar street light

Overview

What is smart street lighting in Benin?

In Benin, we have introduced a smart street lighting project featuring modular solar streetlights. This intelligent lighting system utilizes IoT technology for remote monitoring and smart adjustment of illumination. It not only delivers a reliable solar lighting solution but also contributes to advanced smart city infrastructure in urban areas.

How much does electricity cost in Benin?

Local people pay as much as RMB 1.5 for each kilowatt hour of electricity, while their average annual income is only RMB 1,000. 50.9% of the residents cannot afford the electricity. However, the illumination intensity in Benin is large, and the inexhaustible solar energy is one of the best resources in Benin.

Are solar street lights sustainable in Africa?

In recent years, Africa has been working to develop sustainable lighting scheme to effectively settle the problem of power consumption. Driven by global low carbon trend, the demands for LED solar lighting are increasing year by year. In Africa, Zimbabwe also adopts solar street lights.

Why is sokoyo solar street light important?

The installation of Sokoyo solar street light is of great significance for improving the current situations of lack of public lighting on local road, guaranteeing local traffic safety, stabling social orders and improving the lives of local residents. The power supply in Benin is insufficient.
