

# **Bhutan Power Generation and Storage Company**

## Overview

---

Why is Tata Power partnering with Bhutan?

Mr. Dasho Chhewang Rinzin, MD, DGPC said, “This strategic partnership with Tata Power is in keeping with Bhutan’s aspirations to maximize benefits to the people of Bhutan through fast-tracking the harnessing of its huge renewable energy resources for its economic development and long-term energy security.

How will Bhutan achieve its energy goals?

Bhutan plans to achieve this target through diversification in its energy portfolio beyond traditional hydropower, which would include solar and geothermal energy. This will extend to diversifying project structuring and financing through such strategic partnerships.

What is Bhutan doing to diversify its energy mix?

The development is part of Bhutan’s plans to diversify its energy mix beyond traditional hydropower to include solar and geothermal sources. The strategy involves diversifying project structuring and financing through strategic partnerships. This collaboration is supported by the governments of Bhutan and India.

What is Bhutan's energy vision for 2040?

This is in keeping with Bhutan’s vision for its energy sector which is to take its overall generation capacity to 25,000 MW by 2040 for its energy security and regional energy integration.
