

# **Bosnia and Herzegovina rooftop solar power generation system**

## Overview

---

Who is building a 125 MW solar plant in Bosnia & Herzegovina?

Bosnia and Herzegovina has started working on a 125 MW solar plant - its largest to date. China's Norinco International will build the facility, with completion expected in one year. The European Commission has published a call for private companies to invest in the Western Balkans.

Which sector produces res energy in Bosnia and Herzegovina?

Production of RES energy in Bosnia and Herzegovina is dominated by the heating and cooling sector, for which an increase from the baseline 867.2 ktoe to 1085.2 ktoe in 2020 was planned. In addition, the share of electric energy sector in production of RES energy in the planned period increases from the baseline 444.2 ktoe to 760.6 ktoe in 2020.

Will China build a solar power plant in the Western Balkans?

China's Norinco International will build the facility, with completion expected in one year. The European Commission has published a call for private companies to invest in the Western Balkans. Financial backing could be made available for participating projects in areas including the development of renewable energy sources.

Can a building-integrated PV system reduce energy consumption?

Scientists have proposed a building-integrated PV system that integrates airflow to cool the panels and control room temperature. The system, which also acts as a shading device, can reportedly mitigate drops in power generation efficiency without additional energy consumption.

## Bosnia and Herzegovina rooftop solar power generation system
