

# **British Mobile solar container outdoor power BESS**

## Overview

---

What is a Bess container?

BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management. BESS containers are designed for safety and scalability. Their ability to be stacked and combined allows for customization according to project size.

What is a Bess battery?

Individual batteries form the core of the BESS system, storing electrical energy through electrochemical reactions. These batteries are typically made up of lithium-ion cells due to their high energy density and long lifespan. Cells are grouped together into modules to achieve the desired energy capacity and power output.

Why do businesses need a Bess energy storage system?

BESS provides businesses with a higher degree of energy price security and independence. In an era of increasing energy price volatility and potential grid instability, having a dedicated energy storage system means businesses can maintain operations during price spikes or grid failures.

Why should you choose Bluesun energy storage container solutions?

The professional technical service team makes reasonable design according to the roof type of customers to ensure the efficient operation of customer projects. Bluesun provides 500 kwh to 2 mwh energy storage container solutions. Power up your business with reliable energy solutions.
