

Brussels BESS Portable Power Supply

Overview

Which energy storage system will be used in Engie Bess project?

Set for a grid connection in 2025 this project will deliver power to up to 96.000 households. Sungrow will supply 320 units of its cutting-edge liquid-cooled energy storage system PowerTitan for the ENGIE BESS project in Vilvoorde. The PowerTitan is an efficient, safe, and innovative storage solution that supports ENGIE to deliver energy.

How much power will Sungrow supply in Belgium?

The system will be one of the largest ever installed in Europe with a power capacity of 200MW/800MWh and is the first BESS project Sungrow will supply in Belgium. Set for a grid connection in 2025 this project will deliver power to up to 96.000 households.

What makes Sungrow a Bess system?

Sungrow's BESS solutions are engineered with compact design for quick deployment and operational efficiency. The system's slim design optimizes land use and features intelligently connected, liquid-cooled technology, ensuring a temperature-controlled, cost-effective, and reliable system, the media release said.
