

Brussels New Energy Storage Wind and Solar Project

Overview

How will Sweco contribute to Belgium's energy grid?

The park will make a significant contribution to the energy grid by providing stored renewable energy during periods of low solar and wind energy production — thereby reducing Belgium's reliance on gas power plants. Sweco will deliver the design of the civil engineering and electrical engineering works of the battery energy storage system (BESS).

Is ESG financing a battery energy storage system in Belgium?

Energy Solutions Group (ESG) announced today that it has completed project financing for a 75-MW/300-MWh battery energy storage system (BESS) under construction in Belgium. The Megapack battery system. Source: Tesla Inc The financing was arranged by KBC Bank and Wallonie Entrepreneurs.

Will Sweco design a Battery Park for giga storage Belgium?

Sweco will design one of continental Europe's largest battery parks, Green Turtle, for the energy storage company GIGA Storage Belgium. This facility will have a storage capacity of 2,800 MWh of electricity.

Why should Belgium invest in a critical infrastructure?

This critical infrastructure will play a strategic role in stabilizing the national electricity grid, enabling greater integration of renewable energy sources, and advancing Belgium and the EU's climate and energy goals.
