

Canberra Off-Grid Solar Container 50kW

Overview

Do you need an off-grid solar system in Canberra?

One of the biggest advantages of having an off-grid solar system in Canberra, ACT is reduced energy costs, as rural consumers are often asked by utility providers to pay excessive grid connection fees. If your building can't connect to the local power grid, an off-grid system is exactly what you need.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

.

How much does a commercial solar system cost in Australia?

Solar Choice has been tracking the cost of commercial solar systems in Australia since 2014, publishing average figures each month in our Commercial Solar Price Index. Based on this data we can see the average cost of a 50kW system as of August 2024 is \$50,480 including the STC rebate and GST.

Can GES energy install an off-grid Solar System?

Our in-house, SAA-accredited off-grid solar specialists can supply, design and install an off-grid system for you, even if you're located in an isolated area without access to the local grid. With GES Energy on your side, you can have peace of mind knowing that your off-grid system will be installed correctly.
