

Chad Solar Smart Power Generation System

Overview

What is the Chad energy project?

The Project will help build sustainability in the electricity sector in Chad by reducing production costs; will increase installed capacity in the country and contribute 10% of the energy supplied to the interconnected system (the equivalent of 25,000 customers).

Why should we invest in solar power in Chad?

It is an opportunity to improve energy access in Chad by developing its natural solar potential. Moreover, the Project will set a precedent for PPPs in the country and create an opportunity for replication for other solar power projects on the Sahel region in the framework of the Desert to Power Initiative.

What does Djermaya solar mean for Chad?

The proposed project concerns a EUR 18 million loan as well as a Partial Risk Guarantee (GPR), for the establishment of the Djermaya solar power plant in Chad. Djermaya Solar is a key building block of the Desert to Power Initiative and is of high strategic importance for Chad.

What power does Chad have?

Transformed Right Arm: Chad's initial power, before ever truly training and discovering the hints to his real power. His right arm is covered with armor that enhances his physicals and can fire a blast of Reiatu. Powered Punch: Chad's right shoulder charges up Reiryoku that it unleashes as a powerful blast in the direction he punches.
