

China battery circuit breaker in indonesia

Overview

How much is the Indonesia-China battery deal worth?

Home » Indonesia-China Battery Deal Worth IDR96 Trillion Begins The Indonesia-China battery deal officially broke ground on Sunday, June 29, 2025, marking the start of a major EV battery ecosystem project valued at US\$5.9 billion (IDR96.04 trillion).

Is China stepping up in Indonesia's EV battery industry?

China is stepping up its game in Indonesia's electric vehicle (EV) battery industry after a major exit by South Korea's LG-led consortium. LG and its partners have pulled out of a massive US\$7.7 billion project meant to build a full EV battery supply chain in Indonesia — giving China's Zhejiang Huayou Cobalt a clear path to take charge.

Which companies are leading the electric vehicle battery industry in Indonesia?

Furthermore, the presence of global players such as Hyundai Motor Group, which has opened the first battery cell factory in Indonesia, as well as LG Energy Solution Ltd. and BTR New Material Group, which launched an anode material factory earlier this year, is further strengthening the electric vehicle battery industry ecosystem in the country.

Who owns Indonesia's first lithium-ion battery anode factory?

Indonesia's President Joko Widodo on Wednesday inaugurated the country's first lithium-ion battery anode factory, PT BTR, invested by China's BTR New Material Group (BTR). (Muchlis Jr/Presidential Press Bureau/Handout via Xinhua)
