

# China solar powered generator in Cape-Town

## Overview

---

Will powerchina build a 342 MW solar project in South Africa?

PowerChina has signed an EPC contract with SolarAfrica Energy, a Pretoria-based PV developer, to build a 342 MW solar project in South Africa. PowerChina said that the project in De Aar, Northern Cape, will be South Africa's largest single-unit solar power plant by total installed capacity.

Where is the solar power plant located in South Africa?

(Image Source: PowerChina) China's PowerChina signed an EPC contract with SolarAfrica Energy for the De Aar Central Solar Power Plant in South Africa's Northern Cape Province. The project, based in the town of De Aar, is set to have a total installed capacity of 342 MW, single-unit solar power facility in South Africa.

What is South Africa's largest single-unit solar power plant?

PowerChina said that the project in De Aar, Northern Cape, will be South Africa's largest single-unit solar power plant by total installed capacity. The installation will supply energy to large data centers and other commercial and industrial users across the country.

Where is powerchina located in South Africa?

POWERCHINA has also been engaged in the construction of various green energy projects in the country. The 100MW Redstone concentrated solar thermal power plant is located in the Northern Cape province of South Africa and is the country's largest of its kind.
