

China winch circuit breaker factory manufacturer

Overview

What is a winch system?

Winch systems are devices used to wind a cable or a rope in or out; the resulting tension pulls an object. The winch drum can be powered manually, pneumatically, electrically, or hydraulically. At OUCO, we supply powerful hydraulic winch systems, as well as other winch types.

What is the ouco winch system?

With the OUCO winch system, you can complete more complex winch operations, you can control the speed change, emergency braking, and guide the direction of the rope. The winch system can be used in combination with other equipment or operated independently. And, in addition to electric and hydraulic options, we also offer many customised options.

What certifications do ouco winch systems have?

The OUCO factory and winch systems have the full set of certifications, including ABS, CCS, DNV (GL), RMRS, NK, Rina, KR, CE, ISO, and SGS. With the OUCO winch system, you can complete more complex winch operations, you can control the speed change, emergency braking, and guide the direction of the rope.

Are ouco winch systems corrosion resistant?

OUCO produces winch systems that support color customization and meet C5M marine painting standards, which are corrosion-resistant and not easy to lose paint. In addition to marine operations, they can also be used for factory material and bulk cargo handling work, and OUCO offers classification society certification and acceptance testing.
