

Compact power station factory in Albania

Overview

Where is the largest photovoltaic plant in the Western Balkans?

The largest photovoltaic facility in the Western Balkans is counting the days before the start of production. The Karavasta solar power plant will take over the title from Novaci in North Macedonia, which has just been commissioned.

How much electricity does a solar park generate in Albania?

The solar park just north of the port city of Durrës will generate electricity equivalent to the annual needs of 150,000 inhabitants. The two projects won 15-year contracts for difference (CfDs) at the first successful solar power auctions in Albania. Spitalla, of 100 MW in peak capacity, gets EUR 29.89 per MWh for electricity delivered from 70 MW.

Where is Voltalia's new power plant located?

France-based utility Voltalia said Minister of External Trade Olivier Becht and the country's Ambassador to Albania Catherine Suard visited the site south of Tirana. The construction of the system with a nameplate capacity of 140 MW began 15 months ago.

Who built spitalla solar park in Albania?

French company Voltalia broke ground on the Spitalla solar park in Albania of 100 MW. It scheduled the commissioning of the facility for 2027. Following the completion a year ago of Karavasta, the largest photovoltaic plant in Albania, Voltalia started the construction of Spitalla.
