

# **Construction of power plant energy storage project in the United Arab Emirates**

## Overview

---

Will Dubai's new solar power plant be able to operate 24/7?

The facility will be capable of operating 24/7 on renewable energy. This will also be the world's first 24/7 solar PV, battery storage gigascale project, according to Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC), which are part of the project.

Who is building the world's largest solar and battery storage project?

The United Arab Emirates is building the world's largest solar and battery storage project that will dispatch clean energy 24/7. Emirati Renewable energy company Masdar (Abu Dhabi Future Energy Company) and Emirates Water and Electricity Company (EWEC) are developing the trailblazing solar and battery storage project.

Can a solar power plant deliver 'baseload' power 24/7?

Pairing 5.2GWdc of solar PV generation with 19GWh of battery storage capacity will enable the plant to deliver up to a gigawatt of 'baseload' power 24/7, every day. Al Jaber claimed, 'For decades, the biggest barrier facing renewable energy has been intermittency.'

What is the largest combined solar and battery energy storage system?

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.
