

# Copenhagen solar Container BESS

## Overview

---

What is European energy's new Bess project?

European Energy's new BESS project marks a significant step in the company's strategy to support the integration of renewable energy systems and improve energy efficiency in Denmark and beyond.

Does Copenhagen Energy offer ancillary services & energy arbitrage?

Commenting on the Danish energy storage market, Copenhagen Energy said that it offers a solid mix of revenue opportunities through both ancillary services and energy arbitrage.

When will Bess be installed in Denmark?

The BESS capacity will be installed in Denmark's DK2 electricity zone, representing the country's eastern region, and will be connected to the Nordic grid. With construction works scheduled to begin late this year, the facilities are expected to be commissioned in the first half of 2026.

When will Copenhagen Energy be commissioned?

With construction works scheduled to begin late this year, the facilities are expected to be commissioned in the first half of 2026. Copenhagen Energy has been developing the projects since the start of 2024.
