

Current energy storage projects

Overview

What drives energy storage project development?

Globally, energy storage project development is increasingly driven by the utility-scale segment, with mandates and targeted auctions driving gigawatt-hour projects in markets like China, Saudi Arabia, South Africa, Australia and Chile.

How many energy storage projects are there in the world?

It has 9.4GW of energy storage to its name with more than 225 energy storage projects scattered across the globe, operating in 47 markets. It also operates 24.1GW of AI-optimised renewables and storage, applied in some of the most demanding industrial applications.

What is energy storage technology?

Energy storage technology allows for a flexible grid with enhanced reliability and power quality. Due to the rising demand for energy storage, propelled further by the need for renewable energy supply at peak times, energy storage facilities and producers have grown tremendously in recent years.

Is China entering a new era of energy storage demand?

Mainland China accounts for most of the global energy storage demand, driven in the near term by regional requirements for new utility-scale wind and solar projects to include energy storage capacity. However, the Chinese market is entering an era of change.

Current energy storage projects

China's largest standalone battery storage project powers up

4 days ago · A 500 MW / 2,000 MWh standalone BESS in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's ...

Biggest projects in the energy storage ...

Dec 25, 2024 · Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in ...

The major Battery Storage projects from around the world

Dec 5, 2025 · We provide a detailed report on all the major Battery Storage construction projects around the world with key focus on the largest projects in Europe, Africa, USA and Asia

China's new energy storage reaches new heights

Nov 28, 2025 · In terms of investment scale, the newly operated new energy storage projects have driven direct investment of more than 30 billion yuan (\$4.2 billion) based on the current ...

Top 10: Energy Storage Projects

Jun 5, 2024 · Due to the rising demand for energy storage, propelled further by the need for renewable energy supply at peak times, energy storage ...

China energy storage project pipeline grows by 140 GWh in ...

Sep 2, 2025 · China continued its high-growth energy storage market expansion in July 2025, with 1,556 new energy storage-related projects filed for registration, according to the Energy ...

Top 10: Energy Storage Projects

Jun 5, 2024 · Due to the rising demand for energy storage, propelled further by the need for renewable energy supply at peak times, energy storage facilities and producers have grown ...

China's new energy storage reaches new ...

Nov 28, 2025 · In terms of investment scale, the newly operated new energy storage projects have driven direct investment of more than 30 billion ...

Global Energy Storage Growth Upheld by New Markets

Jun 18, 2025 · The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

Eight Long Duration Energy Storage Projects ...

Source: ASIACHEM, 23 July 2024 In the first half of 2024, China has successfully completed eight significant long duration energy storage ...

Biggest projects in the energy storage industry in 2024

Dec 25, 2024 · Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.

Eight Long Duration Energy Storage Projects Completed in ...

Source: ASIACHEM, 23 July 2024 In the first half of 2024, China has successfully completed eight significant long duration energy storage projects, marking substantial progress in the country's ...

CHINA'S ACCELERATING GROWTH IN NEW TYPE ...

Jun 13, 2024 · In terms of storage types, the dominant advantage of lithium-ion batteries continues to expand, accounting for 97.4% of the new type storage installation. Other types, ...

China Advances Energy Storage Chain with Major New Projects ...

3 days ago · In recent days, China's energy storage and battery industry chain has seen several major project developments. These include the groundbreaking of Ampace's Xiamen Phase II ...
