

# Danish Energy Agency Energy Storage Project Database

## Overview

---

What does the Danish Energy Agency do?

The Danish Energy Agency publishes catalogues of technology data for energy technologies. Technology Catalogues provides information about technology, economy and environment for a number of energy installations and are among other things used by the Danish Energy Agency for energy projections.

What is the energy storage technology catalogue?

Home / Projects / Electricity Storage Technology Catalogue The Danish Energy Agency and Energinet jointly develop technology catalogues for assessments of developments in energy technology. The catalogues are used in connection with model work and other analyses, and are updated continuously to ensure that the best available data is accessible.

What is Danish Center for energy storage?

Danish Center for Energy Storage, DaCES, is a partnership that covers the entire value chain from research and innovation to industry and export in the field of energy storage and conversion. The ambition of DaCES is to strengthen cooperation, sharing of knowledge and establishment of new partnerships between companies and universities.

How can Denmark develop a new energy technology?

If Denmark shall succeed in the development and implementation of new energy technologies such as energy storage and conversion, a broad knowledge of political and legal frameworks, economic models, the role of civil society as well as new forms of organization and collaboration across sectors and disciplines is necessary.
