

Design of offshore solar container communication station inverter grid connection contract

Overview

What are offshore AC solutions?

Offshore AC solutions connect renewables sites to the grid over near- and mid-shore distances. These include turnkey offshore grid connections complete with offshore platforms and onshore stations. Beginning of dialog window. Escape will cancel and close the window.

How to optimize the planning of offshore wind farm cluster grid-connection system?

(1) The method is able to optimize the overall planning of the offshore wind farm cluster grid-connection system, including the selection of the location of the offshore substation, the topology design of the high-voltage transmission line and the selection of the submarine cable, and the selection of the location of the onshore connection point.

What is a shore-side power supply?

The shore-side power supply serves as the critical interface between the ship and the local grid, with high-voltage shore connection (HVSC) systems offering superior power handling capabilities for large vessels than low-voltage shore connection (LVSC) systems.

Why are offshore wind turbines switching to full-scale power conversion?

Recently installed offshore wind turbines have switched to full-scale power conversion (Type 4) for their enhanced grid fault ride-through capability, and this development is also driven by the cost reduction of power electronics.

MV-inverter station: centerpiece of the PV eBoP solution

Medium-voltage transformersiemens / pvebopA reliable partner for the entire lifecycleSmart power distribution: PV power distribution in perfect balance Bundled power: the combiner box Efficient power supply solution: E-HouseSIESTORAGE Interface to all stakeholders: monitoring & control centerThe combiner box combines the output of multiple PV modules, protects the electrical components, and forwards important data and measured values. It's also extraordinarily robust and is suitable for use in the most demanding climatic environments. See more on assets.new.siemens
