

Do I need to replace the entire solar container lithium battery pack

Overview

If your batteries are old, you may need to replace them entirely. You can use a solar battery to maintain your solar power, even if there is less light than usual. Should I replace my solar light batteries?

For example, if your solar lights had NiCd or NiMH 1.2V 600mAh AA batteries, then we would recommend you replace them with our 1.2V NIMH AA 600mAh solar light batteries. The capacity of your old batteries is usually printed on the batteries in a mAh rating.
