

# Does Huawei inverter have energy storage function

## Overview

---

Do Huawei inverters work with energy storage units?

Huawei inverters are adapted to work with energy storage units (L1 and M1 series). You can choose from an LG or Huawei Luna2000 battery. These inverters can function without optimizers, just like classic string inverters, and optimizers can be used under selected PV modules.

Which solar batteries are compatible with Huawei inverters?

This modular lithium battery is designed for high-voltage applications, ensuring compatibility with the latest Huawei inverters, including the single-phase SUN2000- (2KTL-6KTL)-L1 and the three-phase SUN2000- (3KTL-10KTL)-M1. With its advanced technology, the LUNA2000 series promises efficiency and reliability for solar energy storage solutions.

What is Huawei solar inverter?

The Huawei solar inverter has emerged as a dominant force in the global solar market, representing one of the most sophisticated and reliable inverter solutions available in 2025.

Are Huawei inverters battery-ready?

Yes, all Huawei residential inverters (SUN2000-L1 and M1 series) are battery-ready and support plug-and-play integration with LUNA2000 battery systems. You can add batteries years after the initial installation without requiring additional hardware or inverter replacement.
