

# **Doha solar Energy Storage Project**

## Overview

---

What is Qatar's largest solar power project?

Samsung C&T E&C Group has been awarded the contract for Qatar's largest solar power project, underscoring its growing leadership in renewable energy infrastructure. Commissioned by QatarEnergy, the 2,000MW Dukhan Solar Power Project represents the largest capacity solar facility ever undertaken by a Korean construction company.

How has Qatar improved its solar energy sector?

Since the launch of Al Kharsaah plant in 2022, with an initial capacity of 800 megawatts, Qatar rapidly enhanced its solar energy sector, doubling its capacity within just three years, which is a remarkable achievement in itself.

What is Samsung C&T doing with Qatar's largest solar project?

Samsung C&T secures Qatar's largest solar project, a 2,000MW facility in Dukhan covering 27□ with 2.74 million panels, strengthening its leadership in global renewable energy EPC.

Which country is developing a massive solar project in Dukhan?

Moreover, Qatar Energy continues to develop a massive solar project in Dukhan area with a production capacity of 2,000 megawatts, set to become one of the largest solar plants globally. It is expected to be operational by the end of this decade.

## Doha solar Energy Storage Project

---

### Qatar energy storage power

In 2022 Qatar's first solar power project came online, supplying the country with 7.5% of its electricity needs, with two more solar projects scheduled for completion in 2025. These will ...

---

### Doha energy storage power station

This project is the first of its kind in Qatar to integrate 500 kiloWatt-hours (kWh) of energy storage with the electricity grid, solar power and back-up diesel generators, providing both on-grid and ...
