

Egypt power station energy storage procurement

Overview

Will AMEA power develop a standalone battery energy storage system in Egypt?

The developer has announced capacity purchase agreements for the first standalone battery energy storage projects in the country. Dubai-based AMEA Power has signed capacity purchase agreements (CPAs) with the Egyptian government to develop the first standalone battery energy storage systems (BESS) in the country.

Is Dubai launching a solar power plant in Egypt?

The development was described as the first to incorporate a utility-scale BESS in Egypt when first unveiled in September 2024. The Dubai developer is working in parallel on a new 1 GW solar PV power plant with a 600 MWh BESS in the Benban area, Egypt's Aswan Governorate.

How can advanced battery storage improve energy infrastructure?

“By deploying advanced battery storage solutions, we are not only strengthening the country's energy infrastructure but also paving the way for a more resilient and decarbonized power sector,” said Hussain Al Nowais, chairman of AMEA Power.
