

# Energy storage cabinet battery telecommunication site sticker

## Overview

---

What is a telecom energy storage system (TESS)?

Ensure seamless telecom operations with GSL Energy's Telecom Energy Storage Systems (TESS). Designed for cell towers, data centers, and network equipment, our telecom battery systems provide reliable backup power, optimize energy use, and reduce costs.

What is a telecom battery backup system?

A telecom battery backup system is a comprehensive portfolio of energy storage batteries used as backup power for base stations to ensure a reliable and stable power supply. As we are entering the 5G era and the energy consumption of 5G base stations has been substantially increasing, this system is playing a more significant role than ever before.

What is the Energy Cabinet?

Smart Management and Convenience Intelligent Monitoring System: Integrated with a smart monitoring system, the Energy Cabinet provides real-time battery status, system performance, and safety monitoring, enabling remote supervision and fault diagnosis for streamlined operations.

Does GSL energy offer a rack battery backup system?

At GSL ENERGY, our telecom battery backup systems are already deployed across multiple continents, supporting telecom towers, network base stations, and remote telecom hubs. Each rack battery installation is designed for easy integration, stable operation, and minimal maintenance. What is a server rack battery and why is it used in telecom?
