

Energy storage inverter battery 100 degrees

Overview

Does goodwe offer a battery inverter?

GoodWe, a world-leading inverter manufacturer and energy storage solutions provider, has expanded its C&I energy storage solutions portfolio with two new additions: the ETC 100kW hybrid inverter and the BTC 100kW retrofit battery inverter, both of which can be coupled with GoodWe high-voltage battery system Lynx C (101kWh - 156kWh).

How many lynx C batteries can a 100kW inverter run?

Each 100kW ETC Series inverter can be paired with up to 6 Lynx C batteries, allowing for a 100kW/936kWh energy storage system to meet various C&I scenarios. Meeting the needs of smaller systems, the ETC50kW inverter can be combined with three Lync C towers to form a 50kW/468kWh energy storage solution.

Why should you use energy storage inverters?

By utilizing the energy storage system during periods of high energy demand, the inverters can help reduce peak demand charges and lower overall energy costs for customers.

What are high-performance energy storage batteries?

Discover high-performance energy storage batteries designed for reliability and efficiency! Our energy storage solutions feature long lifespan, smart energy management, and seamless integration with solar power systems. Perfect for reducing electricity costs and ensuring backup power.
