WALMER ENERGY

Factory in Norway that makes solar container lithium battery station cabinets

Overview

Where are battery cells made?

A giga-scale factory for battery cell production located in Mid-Norway. Utilizing renewable energy, we are spearheading the development of a sustainable and competitive Norwegian industry focused on energy storage systems.

Who makes Elinor batteries?

Now, Elinor announces its partnership with the very highly regarded team behind Morlus Technology, some of the most experienced battery design and production experts globally. Why should Norway produce batteries?

According to international experts, Norway has everything it takes to become a global leader in the battery industry.

Can Norway become a global leader in the battery industry?

According to international experts, Norway has everything it takes to become a global leader in the battery industry. No other new, green industry can create as much welfare. The setting is quite similar to how Norway built global leadership from scratch in the oil business. Sign up with your email address to receive news and updates.
