

Factory price current breaker in London

Overview

How much does a circuit breaker installation cost?

The installation of a circuit breaker involves more than just the purchase of the unit, encompassing the setup and configuration within the electrical system. Typically, the installation costs range from £40 to £70 per hour, with the total cost influenced by the complexity of the task and the professional fees in your area.

How many circuit breakers are in a house?

Ways refer to the number of circuit breakers in the unit. For instance, a 16-way unit will have 16 circuit breakers, making it larger than a 6-way switch, which costs less. A three-bedroom house typically requires a 12-way unit. Installation costs significantly affect the overall price.

What types of circuit breakers are available?

Circuit breakers, Thermal circuit breakers, Thermal magnetic circuit breakers and other passive components from industry-leading manufacturers, in stock and ready to ship today. The right components for tomorrow's success.

How much does a GFCI breaker cost?

Simple single-pole breakers typically range between £10 and £20, while more advanced types, such as GFCI and AFCI breakers, can cost more. Factors like brand, specifications, and suitability for your specific system also play a significant role.
