

Georgia Coal Mine Energy Storage Project

Overview

How many battery energy storage sites will Georgia Power have in 2026?

Georgia Power has applied for certification of four battery energy storage sites totaling 500 MW expected to come online in 2026. In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS.

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

What is Georgia Power's 530-megawatt battery storage system?

Georgia Power breaks ground at the McGrau Ford Battery Facility in Cherokee County on April 4, 2025. This 530-megawatt battery energy storage system will consist of two phases, approved in the 2022 Integrated Resource Plan (IRP) and 2023 IRP Update. Courtesy: Georgia Power.

What is the Georgia Power Company Integrated Resource Plan Update 2023?

Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update) to the Georgia Public Service Commission, which includes an Application for Certification for four battery energy storage systems totaling 500 MW.

Georgia Coal Mine Energy Storage Project

Georgia cuts funding for major 200 MW energy storage project

Dec 3, 2025 · Georgia has reduced planned 2026 funding for its flagship 200 MW energy storage project, lowering allocations by GEL 85 million.

ADB Approves \$104M for Georgia's Energy Storage and ...

Apr 23, 2025 · ADB approves \$104M loan to enhance Georgia's energy security by creating its first energy storage facility and exploring green hydrogen development.

Construction underway on 765 MW of new ...

May 8, 2025 · In total, 765 megawatts (MW) worth of new BESS will be strategically located across Georgia in Bibb, Lowndes, Floyd, and ...

Georgia Power begins construction of 765 ...

Dec 3, 2025 · In Floyd County, Georgia Power is repurposing the former coal-fired Plant Hammond site to install 57.5 MW of battery storage. The ...

ADB Approves \$104M to Support Georgia's First Energy Storage ...

May 2, 2025 · The Asian Development Bank (ADB) is partnering with Georgia to establish the country's first energy storage facility and explore green hydrogen development under the ...

Construction underway on 765 MW of new battery energy storage ...

May 8, 2025 · In total, 765 megawatts (MW) worth of new BESS will be strategically located across Georgia in Bibb, Lowndes, Floyd, and Cherokee counties.

Here's where Georgia is installing 500 MW of new battery energy storage

Sep 6, 2024 · Georgia Power has applied for certification of four battery energy storage sites totaling 500 MW expected to come online in 2026.

Georgia Power's new IRP keeps coal plants ...

Jul 17, 2025 · Dive Brief: Utility regulators on Tuesday approved Georgia Power's 2025 integrated resource plan, which calls for keeping coal ...

Georgia Power begins construction on 765MW of BESS

May 9, 2025 · Georgia Power breaking ground on the 57.5MW Hammond BESS. Image: Georgia Power Utility Georgia Power has begun construction on 765MW of new battery energy storage ...

Georgia Power begins four battery projects to expand energy ...

May 9, 2025 · The project will add 765 megawatts of electrical generating capacity to the Atlanta-based utility's energy supply portfolio. One megawatt is enough electricity to power 750 homes.

Georgia Scales Up Battery Storage to Support Energy Grid

May 12, 2025 · From coal plant conversions to solar co-location, Georgia Power's battery strategy highlights the evolving role of storage in utility-scale energy planning.

Georgia Power's new IRP keeps coal plants online to serve ...

Jul 17, 2025 · Dive Brief: Utility regulators on Tuesday approved Georgia Power's 2025 integrated resource plan, which calls for keeping coal plants online to serve anticipated data center ...

Here's where Georgia is installing 500 MW of ...

Sep 6, 2024 · Georgia Power has applied for certification of four battery energy storage sites totaling 500 MW expected to come online in 2026.

Georgia Power begins four battery projects to ...

May 9, 2025 · The project will add 765 megawatts of electrical generating capacity to the Atlanta-based utility's energy supply portfolio. One ...

Georgia Power begins construction of 765 MW battery storage in Georgia

Dec 3, 2025 · In Floyd County, Georgia Power is repurposing the former coal-fired Plant Hammond site to install 57.5 MW of battery storage. The Hammond BESS project leverages ...
