

# Georgia solar panel production equipment prices

## Overview

---

How much do solar panels cost in Georgia?

As of October 2024, the average solar panel system costs \$2.63/W including installation in Georgia. For a 5 kW installation, this comes out to about \$13,173 before incentives, though prices range from \$11,197 to \$15,149. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in Georgia?

While a 5 kW system will only cost you \$13,173 in Georgia, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia?

.

How much do solar panels cost?

The cost of solar panels in Georgia is currently lower than the average price of \$3.00 per watt across the United States for residential solar power systems. The size of a solar panel system affects the installation cost, with larger installations having a lower cost per watt due to 'bulk pricing'.

How much does a power system cost in Georgia?

For Georgia, you can use \$3.52 per watt to determine the price of a larger system (system size x price per watt x 0.7 to account for tax incentives). High Power Bills?

Cost: About \$12,635 for a 5 kW system to \$22,743 for a 9 kW system after tax credit. Savings: 7 year payback; about \$24,566 saved over 20 years.
